RUSS CLAIM CAPTURE OF CZERNOWITZ

CZAR'S ARMY KEEPS UP ADVANCE IN SOUTH.

SEE-SAW AT VERDUN

PETROGRAD REPORTS CAPTURE OF 14,000 PRISONERS.

BERLIN, via London, June 16.—Two attacks delivered by the French yesterday and last night on the German line along the southern slope of Dead Man Hill (Verdun front) were unsuccessful, the war office announced today. In the first attack the French temporarily gained some ground but a counter attack drove them back.

PETROGRAD, via London, June 16.—The capture of an additional 100 officers and 14,000 men was announced today by the war office. The Russian successes in the offensive along the southern front are continuing the statement declares.

ROME, via Paris, June 16.—A heavy earthquake was reported at 3:25 o'clock this morning at Forli, a town of Central Italy, having a population of five thousand and at Rimini, a town with the same number of persons 38 miles further east. There were no casualties.

CZERNOWITZ ABANDONED.

Petrograd Gets Report of Fall of Strong Position.

PETROGRAD, via London, June 16.—Details of the reported evacuation of Czernowitz by the Austrians are given in a dispatch from Bukovina by way of Bucharest received by the semi-official Petrograd news agency. The dispatch says that before abandoning the city the Austrian authorities arrested a number of persons who were forced to accompany the retreating troops.

The railway rolling stock was sent to Hlank and the tracks about the city were destroyed. Train-loads of wounded were sent to Dornavato, 75 miles southwest of Czernowitz.

ROME, via London, June 16.—Austrian troops estimated to number 18,000 attacked in dense formation the Italian positions on the Asiago plateau yesterday but were repulsed, leaving piles of corpses before the Italian trenches, says an official statement given out by the war office here today.

ATHENS, via London, June 16.—It was reported in Athens today that the Bulgarians were withdrawing the majority of their forces from Saloniki to the Rumanian frontier.

WILSON GRATEFUL TO GENEROUS FRIENDS

WASHINGTON, June 16.—President Wilson arose early today to read accounts in the morning papers telling of his renomination by the democratic convention at St. Louis late last night. He had been awakened from sleep an hour after midnight by Secretary Tumulty and told over the telephone of the convention's action in naming him and Vice President Marshall by acclamation. "I am very grateful to my generous friends," was his only comment. The president retired only after receiving over special White House telegraph wires assurances that the Americanism plank denouncing political activity of persons of foreign birth, would be adopted without change from his own draft.

MARSHALL SALUTES HEAD OF TICKET

WASHINGTON, June 16.—President Wilson early today received the following telegram from Vice President Marshall at Indianapolis: "In the light which you are to win I am always yours to command." Mr. Marshall's message was one of hundreds received. The president was in a happy frame of mind. He rose early enough to read newspaper accounts of his nomination of which he had been notified by Secretary Tumulty just as he was retiring at 1 o'clock this morning, and to go through many of the congratulatory messages before the semi-weekly cabinet meeting. The members of the cabinet came to the White House wearing broad smiles and hastening to extend congratulations.

Summary of THE TIMES-DEMOCRAT Friday, June 16, 1916.

LOCAL.

Visiting firemen witness local men fight fire. Today marks close of Firemen's convention. Home wanted for lad, 14 years old.

More Lima teachers to attend normals. Lima chautauqua tickets for sale. Mackenzies open new line addition.

Serious charges in divorce suit. Is held at Wapakoneta for horse stealing. Dog bites Metcalf street child.

Missionary leader guest of pastors and laymen.

NATIONAL.

Wilson and Marshall renominated with much enthusiasm. Democratic platform avows staunch Americanism.

Ohioans honored at great national democratic meet. Five lives lost in Pacific disaster.

American troopers killed in attack upon their camp. Export demand bears wheat price.

Mexican situation affects Wall street.

FOREIGN.

Will animals in Korea are Russian claim Czernowitz.

THE DAY IN CONGRESS.

SENATE—Met at noon. Adjourned at 12:07 p. m. to noon Monday.

HOUSE—Met at noon. Passed numerous private bills. Military affairs committee filed favorable report on army appropriation bill carrying \$157,123,099.

FIVE LIVES LOST IN PACIFIC DISASTER

Only Fatalities in List of Passengers and Crew of Steamer.

EUREKA, Calif., June 16.—All of the 210 passengers and crew of the steamer Bear, wrecked on Sugar Loaf reef near here Wednesday night, have been accounted for, according to a statement made today by Purser C. F. Heywood. He said that after a careful checking of the passenger list, he was convinced that the five persons drowned and whose bodies have been recovered were the only ones that perished.

One body, that of a young woman, still is unidentified. Two hundred feet from shore, the steamer lay pounding on the reef, but still intact. Members of the crew had a line out to her and were endeavoring to take off baggage and valuables.

Navigators here familiar with the coast said that the 1906 earthquake had affected the ocean bed in the vicinity of Cape Mendocino and that there were numerous sink holes near Sugar Loaf. Two of the Bear's life-boats were swept towards the shore and compelled to make a landing through the surf. While in the surf the boats collided and both capsized. They were eventually righted but three persons from one boat and two from the other were drowned. The others reached the beach near Capitola.

A woman passenger's dog was said to have been responsible for the capsizing of the boats, according to one of the survivors. The dog fell overboard. The woman who owned it reached out for the animal and in doing so knocked one of the oars out of the oarlock. This caused the boat to veer into the other life-boat and both turned over.

BLONES LOOSE BOOKKEEPING.

BUYRUS, O., June 16.—Lou J. Lindsey, clerk of the Crestline, Ohio water works board, charged with having embezzled \$5,200.76, was spirited here in an automobile and lodged in the county jail for safekeeping. Lindsey charges the alleged discrepancy to loose bookkeeping.

Wilson and Marshall Named Again; Platform Strong for America First

Our Next President.

Woodrow Wilson.

OHIOANS HONORED AT GREAT NATIONAL DEMOCRATIC MEET

Finley Expected to Aid in Organization of Democratic Campaign.

Baker Popular, Harmon and Bryan May Stump Ohio.

ST. LOUIS, June 16.—Ohio men have been leaders and Ohio prominent in the deliberations and conclusions of the democratic convention. In no other convention where democrats of the present generation have been delegates has the state occupied a position of such prominence or been accorded such distinguished consideration or contributed so largely to the constructive and formative work of a gathering.

For the first time in a quarter of a century the Ohio national committee was so effective in his work that every Ohio visitor had a chance to attend at least one session of the convention. National Committeeman Edmund H. Moore has been overwhelmed with congratulations and expressions of good will for his work. Every Ohio visitor here approved action of the Ohio delegates when they elected him for another term in that office. Mr. Moore has had important work in connection with the preliminary arrangements and plans for the gathering and has been continuously consulted on questions of procedure and policy.

Senator Atlee Pomerene of Ohio helped draft the convention platform. Ohio supplied the most influential

THOMAS R. MARSHALL

DOG BITES METCALF STREET CHILD TODAY

Police were informed this morning of the attack of a dog on a south side child. The victim of the attack was a child of Otto B. Freeman, who resides at 745 South Metcalf street. According to the physician who was summoned to dress the wounds of the child, the limbs of the victim were badly lacerated. Although police were sent to kill the dog, the physician in charge of the case ordered that the animal be penned up to await developments. If it is afflicted with hydrophobia it will die within a few days and the head will be sent to Columbus for examination.

AMERICAN TROOPERS KILLED IN ATTACK UPON THEIR CAMP

Six Others Wounded When Assailed at San Ignacio, Mexico.

Consulate at Durango is Intact; No Trouble Reported There.

WASHINGTON, June 16.—A consular despatch direct from Durango, Mexico, received today, said there was no truth in the report circulated and generally credited a few days ago that the American consulate there had been burned during an anti-American demonstration. The consul said there had been no attack on the consulate.

Further details of the fight yesterday morning at San Ignacio between United States cavalry and Mexican regulars received by the war department today show that the bandits believed they were assailing less than half a troop, when in fact they encountered portions of two troops, or about 80 in all. A sentry heard voices in the brush beyond the camp in the early morning hours. He called the corporal of the guard, who set out with one or two men to investigate. They were fired on and the shooting aroused the camp.

The troopers sprang from their tents into shallow trenches, prepared for such an emergency, and poured an answering fire into the brush. One of the cavalymen killed was shot as he emerged from his tent.

War department records give the

GREAT DEMOCRATIC HOST PRESENTS SOLID FRONT FOR CAMPAIGN

Firm Stand Taken On Issues of Vital Import to Nation at Large

BRYAN IN LINE FOR TICKET

Convention Closes In Wonderful Blaze of Enthusiasm for Wilson and the Democracy of the People

COLISEUM, ST. LOUIS, Mo., June 16.—2:44 p. m. Roll call was ordered on the suffrage amendment, after an hour of debate.

COLISEUM, ST. LOUIS, Mo., June 16.—At 11:36 a. m. Chairman James called the convention to order.

Prayer was offered by Rabbi Leon Harrison of St. Louis who gave thanks for "the great leader of this nation yielding no strong arm of flesh, and yet triumphant in his invincible plea for justice and humanity". He gave thanks for "the wise and noble president of the United States, who has warded off disaster, who with firm and fearless hand has steered us between the menace of both warfare and dishonor, assuring the people peace without shame, a proud peace with head erect and dignity undiminished".

Chairman James called for the report of the platform committee but it was not ready and the convention settled down to wait.

In response to a request from the delegates to fix the time and place for notification of President Wilson and Vice President Marshall of their renomination Chairman James explained that it was the plan to confer first with the candidates.

Senator Reed of Missouri, then made a speech to all in the time. The burden of Reed's speech was an attack on the nomination of Mr. Hughes because he was taken from the supreme court bench.

Reed read a statement which he attributed to Mr. Hughes in 1912, which declared against a supreme court justice entering politics. "Against Candidate Hughes in 1912," I quote Mr. Justice Hughes in 1912," he declared as he read the statement.

At 12:29 Senator Stone began reading the report. "I am not going to read it," said he, referring to the platform. "I have not been able to sleep a moment in more than 30 hours."

Chairman Stone delegated the reading to Senator Walsh of Montana and Senator Hollis of Montana.

The first applause given the platform was for the endorsement of the administration. The delegates gave close attention. Before Senator Walsh had finished the preamble spectators in the galleries began to leave and the noise made it difficult for delegates to hear. Endorsement of the Underwood tariff act was given general applause. The delegates seemed too weary to interrupt with lengthy applause. The much discussed plank on Americanism drawn by President Wilson himself was next read. It was interrupted by hand-clapping. Its denunciation of conspirators for the advancement of foreign influence in this country was loudly applauded. The plank was intently followed. Its criticism of disloyalty by some Americans was loudly applauded. Exhortation of a political party that should reach such support received similar approval.

Close attention was given the plank relating to foreign policies. There was occasional scattering applause and cheers. The Latin American policy plank got some applause but more greeted the Mexican plank and frequently interrupted its reading, especially the re-affirmation of the Monroe Doctrine.

The assertion that American troops should be kept in Mexico until danger of raids subsided was loudly applauded.

The assertion that intervention as a "last recourse" received applause, but generous approval was given to the endorsement of the president's attempt to prevent intervention. After concluding the Mexican plank, Senator Walsh was "spelled" as Senator Stone characterized it, in the reading of the platform by Senator Hollis.

The reading of the planks went on to scatter applause but when the plank declaring for an eight hour day for federal employees, civil service pension, child labor and the general welfare plank were read there were loud yells of "hooray."

When the woman suffrage plank was reached the galleries started a demonstration. Prolonged cheers, applause and whistling followed its reading, emphasized by Senator Hollis.

The suffrage plank got more of a demonstration from the men than it did from the women. The peace plank was applauded, so was that upon prison reforms. The reading of the platform was concluded at 1:30 p. m. and the band struck up.

Chairman Stone then moved the adoption of the platform as read. Martin M. Lomasney, a Massachusetts delegate objected to the adoption.

After a wrangle Senator Stone yielded to Lomasney ten minutes of his time. It turned out that Lomasney wanted to put in a plank to express the sympathy of the convention with "the people of Ireland."

"Raus mit ihm!" roared a Maryland delegate. The convention rocked with laughter.

"Big Si" Cummings of Maryland, moved that Mr. Lomasney's resolution be referred to the resolutions committee and Chairman James so ruled. Governor Ferguson of Texas, presented the minority report on woman suffrage under an agreement for 30 minutes debate on each side.

Governor Ferguson declared he endorsed the state rights amendment despite its possible political inexpediency.

When Governor Ferguson finished, Senator Stone spoke for the majority report. Senator Stone, supporting the committee's draft, said Governor Ferguson had misconceived the issue before the convention.

"He makes a man of straw and then demolishes it," said Stone.

NOMINATION AMID ENTHUSIASM. Convention calls for Bryan, Who Pledges Support of Ticket.

ST. LOUIS, Mo., June 16.—The democratic national convention, having by acclamation renominated President Woodrow Wilson and Vice President Thomas R. Marshall, meets

DEMOCRATIC PLATFORM AVOWS STAUNCH AMERICANISM, RADICAL PROGRESS FOR THE COMMONWEAL

The democratic party in national convention assembled, adopts the following declaration to the end that the people of the United States may both realize the achievements wrought by four years of democratic administration and be apprised of the policies to which the party is committed for the further conduct of national affairs.

We endorse the administration of Woodrow Wilson. It speaks for itself. It is the best exposition of sound democratic policy at home and abroad.

We make comparison of our record, our keeping of pledges, and our constructive legislation, with those of any party of any time.

We found our country hampered by special privilege, a vicious tariff, obsolete banking laws, and an inflexible currency. Our foreign affairs were dominated by commercial interests for their selfish ends. The republican party, despite repeated pledges, was impotent to correct abuses which it had fostered. Under our administration, under a leadership which has never faltered, these abuses have been corrected and our people have been freed therefrom.

Our archaic banking and currency system, prolific of panic and disaster under republican administrations—long the refuge of the money trust, has been supplanted by the federal reserve act, a true democracy of credit under government control, already proved a financial bulwark in a world crisis.

Four Years Record. We have created a federal trade commission to accommodate the perplexing questions arising under the anti-trust laws so that monopoly may be strangled at its birth and legitimate industry encouraged. Fair competition in business is now assured.

We have effected an adjustment of the tariff, adequate for revenue under peace conditions, and fair to the consumer and to the producer. We have adjusted the burdens of taxation so that swollen incomes bear their equitable share. Our revenues have been sufficient in times of world stress, and will largely exceed the expenditures for the coming fiscal year.

We have lifted human labor from the category of commodity and have secured to the working man the right of voluntary association and for his protection and welfare, the right of trial by jury for alleged contempt committed outside.

We have advanced the parcel post to genuine efficiency, enlarged the postal savings system and for the first time in our history placed the post office system on a self-supporting basis.

We re-affirm our belief in the doctrine of a tariff for the purpose of providing sufficient revenue for the operation of the government economically administered and unreservedly endorse the Underwood tariff rates are necessarily subject to change to meet changing conditions in the world's production and trade.

In order to ascertain just what these changes may be, the democratic congress is providing for a non-partisan tariff commission to make impartial and thorough study of every economic fact that may throw light either upon our past or upon our future fiscal policy with regard to the imposition of taxes on imports or with regard to the changed conditions under which our trade is carried on.

Immediate provision should be made for the development of the carrying trade of the United States.

We heartily endorse the purpose

and policy of the pending shipping bill and favor all such additional measures of constructive or remedial legislation as may be necessary to restore our flag to the seas and to provide further facilities for our foreign commerce, particularly such laws as may be made to remove unfair conditions of competition in the dealings of American merchants and producers with competitors in foreign markets.

America First. "The part that the United States will play in the new day of international relationships which is now upon us will depend upon our preparation and our character. The democratic party therefore recognizes the assertion and triumphant demonstration of the indivisibility and coherent strength of the nation, as the supreme issue of this day in which the whole world faces the crisis of manifold change. It summons all men, of whatever origin or American to join in making clear to all the world the unity and consequent power of America."

"This is an issue of patriotism. To taint it with partisanship would be to defile it. In this day of test, America must show itself, not a nation of partisans, but a nation of patriots. There is gathered here in America the best of the blood, the industry and the genius of the whole world, and the elements of a great race and a magnificent society to be melted into a mighty and splendid nation."

"Whoever, actuated by the purpose to promote the interest of a foreign power, in disregard to our country's welfare or to injure this government in its foreign relations or to cripple or destroy its industries at home and wherever by arousing prejudices of a racial, religious or other nature creates discord and strife among our people so as to obstruct the wholesome process of unification, is faithless to the trust which the privileges of citizenship repose in him and disloyal to his country."

"We therefore, condemn as subversive of this nation's unity and integrity, and as destructive of its welfare, the activities and designs of every group or organization, political or otherwise, that has for its object the advancement of the interest of a foreign power, whether such object is promoted by intimidating the government, a political party, or representatives of the people, or which is calculated and tends to divide our people into antagonistic groups and thus to destroy that compact agreement and solidarity of the people and that unity of sentiment and national purpose so essential to the perpetuity of the nation and its free institutions."

"We condemn all alliances and combinations of individuals in this country of whatever nationality or descent, who agree and conspire to further for the purpose of embarrassing or weakening our government or improperly influencing or controlling our public representatives in dealing or negotiating with any foreign power. We charge that such conspiracies among a limited number exist and have been instigated for the purpose of advancing the interests of foreign countries to the prejudice and detriment of our own country. We condemn any political party which in view of the activity of such conspirators surrenders its integrity or modifies its policy."

For Preparedness. We, therefore, favor the maintenance of an army fully adequate to the requirements of order, of safety, and of the protection of the nation's rights, the fullest development of

modern methods of sea coast defense and the maintenance of an adequate reserve of citizens trained to arms and prepared to safeguard the people and territory of the United States against any danger of hostile action which may unexpectedly arise; and a fixed policy for the continuous development of a navy worthy to support the great naval traditions of the United States and fully equal to the international tasks which the United States hopes to undertake in the new day of international relationships. The plans and enactments of the present congress afford substantial proof of our purpose in this exigent matter. We hold that it is the duty of the United States to use its power, not only to make itself safe at home, but also to make secure its just interests throughout the world, and, both for this and in the interest of humanity, to assist the world in securing settled peace and justice. We believe that every people has the right to choose the sovereignty under which it shall live; that the small states of the world have a right to enjoy from other nations the same respect for their sovereignty and for their territorial integrity that great and powerful nations expect and insist upon; and that the world has a right to be free from every disturbance of its peace that has its origin in aggression or disregard of the rights of peoples and nations; and we believe that the time has come when it is the duty of the United States to join with the other nations of the world in any feasible association that will effectively serve these principles, to maintain inviolate the complete security of the highway of the seas for the commerce and unhindered use of all nations.

The present administration has consistently sought to uphold and realize in its conduct of the foreign affairs of the nation the principle that should be the object of any association of the nations formed to secure the peace of the world and the maintenance of national and individual rights. It has preferred respect for the fundamental rights of the smaller states even to property claims of humanity as of greater moment than material rights and peace as the best basis for the just settlement of commercial rights and settlement of commercial claims.

Pan Americanism Covered. We recognize now, as we have always recognized, a definite and common interest between the United States with the other peoples and republics of the western hemisphere in all matters of national independence and free political development. We favor the establishment and maintenance of the closest relations of amity and mutual helpfulness between the United States and the other republics of the American continents for the support of peace and the promotion of a common prosperity.

We commend the action of the democratic administration in holding the Pan-American financial conference at Washington in May, 1915 and organizing the International High Commission which represented the United States in the recent meeting of representatives of the Latin-American republics at Buenos Ayres in April, 1916, which

have so greatly promoted the friendly relations between the people of the western hemisphere. The Monroe Doctrine is re-affirmed as a principle of democratic faith. That doctrine guarantees the important republics of the two Americas against aggression from another continent.

The want of a stable responsible government in Mexico, capable of repressing and punishing marauders and bandit raids, who have not only taken the lives and seized and destroyed the property of American citizens in that country but have insolently invaded our soil, made war upon and murdered our people there, has rendered it necessary temporarily to occupy, by our armed forces, a portion of the territory of that friendly state. Until the restoration of law and order therein, a repetition of such incursions is improbable, they must remain.

Intervention, implying as it does, military subjugation is revolting to the people of the United States notwithstanding the provocation to that course has been great. The stubborn resistance of the present and its advisers to every demand and suggestion to enter upon such a course is alike to them and to the people in whose name he speaks.

Conservation. For the safeguarding and quickening the life of our own people we favor the conservation and development of the natural resources of the country by means of a policy which shall be positive rather than negative, a policy which shall not withhold resources from development but which, while permitting and encouraging their use, shall prevent both waste and monopoly in their exploitation, and we earnestly favor the passage of acts which will accomplish these objects and we re-affirm the declaration of the platform of 1912 on this subject.

The Administration and the Farmer. The vigorous prosecution of investigation to render agriculture more profitable and country life more healthful, comfortable and attractive, and we believe that this should be a dominant aim of the nation as well as of the states. With all its recent improvement farming still lags behind other occupations in development as a business, and the advantages of a advancing civilization have not accrued to rural communities in a fair proportion. Much has been accomplished in this field under the present administration more than under any previous administration. In the federal reserve act of the last congress and rural credits act of the present congress the machinery has been created which will make credit available to the farmer instantly and readily, and he has at last been put upon a footing of equality with the merchant and the manufacturer in securing the capital necessary to carry on his enterprises. Grades and standards necessary to the intelligent and successful conduct of the business of agriculture have also been established, or are in the course of being established by law. The long-needed cotton futures act, passed by the sixty-third congress, has now been in successful operation for nearly two years. A grain grades bill, long needed and a permissive warehouse bill, intended to provide better storage facilities and to enable the farmer to obtain certificates upon which he may secure advances of money, have been passed by the house of representatives and have been favorably reported to the senate and will probably become law during the present session of the congress. Both houses have passed a good roads measure which will be of far-reaching benefit to all agricultural communities. Above all, the most extraordinary and significant progress has been made, under the direction of the department of agriculture in extending and perfecting practical farm demonstration work so rapidly substituting scientific for empirical farming.

But it is also necessary that rural activities should be better directed through co-operation and organization, that unfair methods of competition should be eliminated and the conditions requisite for the just, orderly and economical marketing of farm products created. We approved the democratic administration for having emphatically directed attention for the first time to the essential interests of agriculture involved in farm marketing and for the creating the office of markets and rural organization in connection with the department of agriculture and for extending the co-operative machinery necessary for conveying information to farmers by means of demonstrations. We favor continued liberal provision, not only for the benefit of production, but also for the study and solution of problems of farm marketing and finance and for the extension of existing agencies for improving country life.

Good Roads. The happiness, comfort and prosperity of rural life, and the development of the city are alike conserved by the construction of public highways. We therefore favor national aid in the construction of post roads and roads for military purposes.

Government Employment. We hold that the life, health and strength of the men, women and children of the nation are its greatest asset, and that in the conservation of these the federal government wherever it acts as the employer of labor, should both on its own account and as an example, put into effect the following principles of just employment:

1—A living wage for all employees.
2—A working day not to exceed eight hours, with one day of rest in seven.
3—The adoption of safety appliances and the establishment of thoroughly sanitary conditions of labor.
4—Adequate compensation for industrial accidents.
5—The standard of the "Uniform Child Labor Law" wherever minors are employed.

6—Such provisions for decency, comfort and health in the employment of women as should be accorded the mothers of the race.
7—An equitable retirement law providing for the retirement of superannuated and disabled employees of the civil service to the end that a higher standard of efficiency may be maintained.

We believe also that the adoption of similar principles should be urged and applied in the legislation of the states with regard to labor within their borders, and that through every possible agency the life and health of the people of the nation should be conserved.

We declare our faith in the seamen's act, passed by the democratic congress, and we promise our earnest continuance of its enforcement. We favor the speedy enactment of an effective federal child labor law and the regulation of the shipment of prison-made goods in interstate commerce.

We favor the creation of a federal bureau of safety in the department of labor, to gather facts concerning industrial hazards, and to recommend legislation to prevent the maiming and killing of human beings.

We favor the extension of the powers and functions of the federal bureau of mines.

We favor the development upon a systematic scale of the means already begun under the present administration, to assist laborers throughout the nation to seek and obtain employment, and the extension by the federal government, by the same assistance and encouragement as is now given to agricultural training.

We heartily commend our newly created department of labor for its excellent record in settling industrial strikes by personal advice and through conciliating agents.

Public Health. We favor a thorough reconsideration of the means and methods by

which the federal government handles questions of public health, to the end that human life may be conserved by the elimination of loathsome diseases, the improvement of sanitation and diffusion of a knowledge of disease prevention. We favor the establishment by the federal government of tuberculosis sanitariums for needy tubercular patients.

Senate Rules. We favor such an alteration of the rules of procedure of the senate of the United States as will permit the prompt transaction of the nation's legislative business. Economy and the Budget. We demand careful economy in (Continued on page five)

of New Jersey.

For Vice President
THOMAS R. MARSHALL
of Indiana.

QUALIFICATIONS?

Republicans who expressed excitement in the selection of Justice Hughes as the presidential nominee of the G. O. P. have now had time to get over their first burst of hilarity, which arose because of the nomination of a "new" man who had no memories, and now face the difficult task of preparing a campaign. The hardest question they have to answer is this: What is the issue? But equally important is the corollary: What are Hughes' qualifications?

As for the issue, the Republican party stands today without one shred of a trace of a vestige of a clue to an issue. The platform offers no substitute for the Wilson policies which the party has assailed. It hints at no definite course which the G. O. P. would substitute for that of the president. It gives no impression of the party's program, for it is negative, not positive, in tenor. In that respect it is entirely destructive and nowhere constructive.

As for the qualifications of the New York jurist, the more ardent of his adherents have been satisfied with merely political qualifications. He is heralded as a man who has been too inactive to have created a mass of opposition, too quiet to talk himself to a political grave and too much of a "middle-of-the-roader" to be antagonistic to either wing of his party. These are perhaps qualifications for the nomination, but what most of the voters will want to know is: What are his qualifications for the office of president?

Hughes urged the New York state legislature, when he was governor, to veto the income tax amendment. He vetoed the Coney Island five cent fare bill, permitted Barnes, Woodruff and Platt to run the state with the famous Black Horse Brigade in the senate, appointed the machine candidates for office and finally, after his elevation to the supreme bench broke a precedent of 127 years' standing—he resigned the bench to run for an elective office. Not since John Jay doffed the judicial ermine to become governor of New York has the supreme court been a factor in politics, but Hughes let it enter.

These are his qualifications. Whether or not they qualify we leave to the reader's decision.

WILSON, NOMINEE

Four years ago Woodrow Wilson ran for the office on a platform of promise. Today he seeks re-election on a platform of performance. Examination of the Baltimore platform proves that he has effected the passage not only of the legislation which he then advocated, but also of many more reform measures as well. More than that, he has started programs looking to preparedness, rehabilitation of national resources, banking laws concerning agriculture, extension of the postal service and many other matters which the intelligent voter must consider in their true light.

The nation is too well aware of the success of the federal reserve bank bill, the currency measure and the Underwood tariff to need further information. Suffice it to note that these measures were planks in the 1912 platform and have been in working order since 1913 and 1914.

The test of a president's fitness for a second term is to be found in the manner with which he has treated his campaign promises. Can any Hughes adherent show a single legislative program advocated by Mr. Wilson four years ago which has not received proper consideration and passage? If so, what is it? The

Congressional Record and the Baltimore platform are remarkably paralleled in their contents. No better evidence is obtainable. That is why the democrats are confident of the thanks and gratitude of the electorate.

The Republicans failed to nominate a candidate on the first ballot—the first time, says the Associated Press, since 1888. Speaks significantly of the lost value of Mark Hanna and Theodore Roosevelt as Republican leaders.

Roosevelt says Wilson uses "weasel words". If animals are to be introduced, permit us to call attention to Teddy's perpetual use of "bull" words.

There's one thing which June brides never take into consideration—rates for excursions are lower toward the end of the season.

Candidates are funny creatures sometimes. What does the average voter care about the aspirant's mother's maiden names?

What ever became of the dancing teacher who offered the maxixe, the tango and the various movements with animal nomenclature?

The Russians are on the move in the eastern front again. The last time they did any moving in that region it was a retreat.

What ever became of the old-fashioned delegate who went to a national convention to overthrow the bosses?

Southern delegates evidently wish to slight nobody—they started out by giving every candidate a vote of two.

The girl with the freckles often looks better to the passer-by than the Moll with the paint.

Willis received a few votes on the first ballots. Must have relatives in the convention.

Speaking of dead ones, what ever became of that Whitman-for-president boom?

Funny how much bigger a girl's feet will look in these flat heeled rubber shoes.

GOOD EVENING: What is a vacation without sunburn?

What Other Papers Say

HUGHES' NOMINATION.

The statement in which Judge Hughes accepts the republican nomination for the presidency is a very clever bid for the support of Colonel Roosevelt and is much more remarkable for its vulnerability as a political argument than for its sound and sensible statesmanship. His emphatic assertion that he stands for an "Americanism that knows no ulterior purposes, for a patriotism that is simple and complete" is no more nor less than any American nominated for the presidency must say and feel. It is a more commonplace cleverly phrased but without any real political meaning.

In his discussion of the foreign policies of the Wilson administration Candidate Hughes, as was entirely proper for a man selected by the Standard Oil interests, says without disguise or equivocation that the United States should have intervened in Mexico. It is a fair inference from his message that he intends the people to know that he will intervene in Mexico if he is selected to the presidency. Standard Oil has been behind the demand for the American occupation of Mexico because that monopoly owns a great part of the oil and other resources of that republic and wants a free hand in their development and exploitation.

If Hughes is elected to the presidency an American army of at least a hundred thousand men will occupy

NEW MOVIELAND

By DAISY DEAN

THE release of six productions featuring Florence Turner and a cast of unexcelled pictures has been announced by Mutual. Florence Turner will be remembered as one of the first screen players to obtain recognition from the public. She was one of the early Vitaphone stars and played in many pictures opposite Maurice Costello.

"Far From the Madding Crowd", the first of the series, which will be released June 19, is a film adaptation of Thomas Hardy's book of the same name. Each succeeding month will see the release of one of these features, the others being "Doorstep", an English comedy drama; "The Welsh Singer", "The First Settler's Story", "Shop Girls", a sociological drama, and "Redeemed".

The Florence Turner pictures were directed by Larry Trimble, who has been associated with Miss Turner ever since she left Vitaphone and organized her own company in England.

"Broncho Billy" is Films Again. G. M. Anderson, formerly known to the screen as Broncho Billy, is about to return to motion pictures. On the frontiers of New York City he will produce the type of western photo drama for which he is known wherever films are screened.

Most of Billy's wild and woolly cow punchers from the Niles (Cal.) plant have been re-engaged and are in New York. In addition a carload of pintos, calico ponies, ranch house and roundup properties have been assembled there, as well as a corps of assembly men and camera men.

Broncho Billy is holding his peace as to the future. He has admitted that he "may produce a film or two and maybe something big later on," but for the present "nothing much doing".

Joseph Urban, scenic artist, who has painted some of the most artistic scenery now being shown on the stage in America, has been engaged to make all the posters for the new Fox play starring Annette Kellerman.

The Metro Co. announces that

Mexico and restore peace and the security of life and property in that republic. Are the people of the United States ready to sacrifice the manhood and treasure of the country as well as the honor of the republic in order that Rockefeller may have a free hand in the oil business and in railway operation in Mexico? Are American mothers and fathers willing to give their sons to die in tropical campaigns in order that the most gigantic monopoly in the history of business may be secured from danger to its properties?

In discussing the international controversies growing out of the European war Judge Hughes characterizes the democratic administration as incompetent and inept. He does not say what he would do that would be different or that would give different results. He declares that the lives and property of American citizens must be safeguarded on all the seas and in all the countries of the world. That is exactly what President Wilson has been doing for three years and everything that the democratic administration has done has been in strict conformity with the principles of international law. Mr. Wilson has conceded no single point in his controversies with any of the warring nations in Europe. He has won victories of diplomacy that will be more enduring than any of the victories of the land or sea forces of any of the contending powers. He has not only secured practically all that he has asked for in his demands on the belligerents but he has kept the record so clear and so free from compromise and concession that this country will be in the very strongest position to press for a just settlement of any undetermined questions as to the rights of American citizens after peace has been established.

Short of invading Mexico or declaring war on Germany nothing more could have been done than has been accomplished by the Wilson administration. Thoughtful citizens after a careful reading of the Hughes statement must conclude either that he proposes to invade Mexico and make war on Germany or that he has signed an insincere and mean-

Florence E. Turner.

Miss Turner, who was one of the first great screen favorites, was born in Brooklyn, N. Y., is of Spanish-Italian extraction, and comes from artistic, theatrical and scientific ancestry. She began her stage career at the age of three and has been in moving pictures for nearly ten years.

sometimes it is possible for visitors in New York to arrange for admittance to the studios. It depends on circumstances—and probably on the visitors. The stars at that studio include Francis X. Bushman.

Marguerite Skirvin, who looks like Hazel Dawn, and has had important stage roles, will appear with Lionel Barrymore in the Metro-Rolle play, "The Quilter".

Pearl White learns that French soldiers on leave are being shown her "Exploits of Elaine", renamed in Paris, "Les Mysteres De New York".

ANNOUNCEMENTS

A HACKING COUGH WEAKENS THE SYSTEM

Don't suffer with a hacking cough that has weakened your system—get a bottle of Dr. King's New Discovery, in use over 40 years, and be adding all who use it, the soothing pine balsam with tar heal the irritated air passages—soothe the raw spots, loosen the mucus and prevent racking the body with coughing. Dr. King's New Discovery induces natural sleep and aids nature to cure you.

HEALTH HINTS

Brushing Your Hair With Help to Cure Dandruff.

Dandruff results when the oil glands of the scalp get out of order. When this occurs there is either an excessively oily condition of the scalp or a scaly eruption.

The latter condition results in scales on the scalp. These scales drop off and are called "dandruff." Dandruff usually accompanies a run down condition. People suffering from tuberculosis, anemia or general debility generally have much dandruff.

To prevent dandruff the scalp must be given frequent attention and must be kept scrupulously clean. If there are scales or crusts on the scalp they must be removed and kept removed.

Brush the hair thoroughly morning and night. This helps to keep the hair clean. Best of all, it acts as a stimulant to the scalp and aids in keeping it healthy and active.

Shampoos with crude oil or tincture of green soap or tar soap are best to clean the hair and scalp. A little pure olive oil is good if well rubbed into the scalp.

Eilerman CLOTHING CO.

115-117 W. Market St. Lima, Ohio

Foremost Makers and Distributors of Men's and Boys' Clothes.

NOW IS THE TIME

For Every Man to Buy His Summer Suit

OHIO FIREMEN END THREE DAY SESSION

Blaze of Glory and Jollity
Marked Evening Hours
Yesterday.

It was today marking the close of the three firemen associations in Lima, all trains leaving the city bore large numbers of departing visitors to their homes. All agreed that the convention was one of the most successful ever held, especially because of the amalgamation of the three organizations and the business consummated toward the advancement of the good of the members of the associations.

Business of the bodies was concluded with the election of officers of the new organization yesterday, at a meeting held at the Memorial hall, and the selection of Springfield as the meeting point of the next convention, which will probably be held in September.

As planned, yesterday proved to be the biggest day from the enthusiastic standpoint of any other day during the week's session of firemen. Reinforced by the arrival of the Lake Erie Volunteers' association, the delegation of visitors reached up toward a thousand in number.

Immediately following the parade, yesterday evening, the big open air ball was held on West street between High and Market streets. Taken from every standpoint is was one of the most successful ventures of this kind ever attempted in Lima. To the latest music, played by a 30-piece band, hundreds of couples literally jammed themselves on the asphalt in their attempt to execute the latest hops and steps.

At 10 o'clock this morning another test of the apparatus confined in the South and West side fire stations was made made at the corner of High and Central avenue. That the pump used in throwing the water is very powerful was proved when water was forced through the hose from a cistern. A stream of water was thrown 100 feet in the air.

The reception held at the Elks' home which started this afternoon and is to continue until late in the evening marks the close of the convention.

This evening all members of the different organizations, who are still in the city will be invited to attend the dinner served in the dining room of the order. Later a ball will be given on the lodge dance floor.

THE IDLER

Mrs. Fred. Oehlrich of near Spencerville, was able to return to her home near Spencerville yesterday, after having been subjected to a successful operation at the city hospital. Her niece, Miss Elsie Siebert of 1123 Forest avenue, accompanied her for a visit.

The second series of motion pictures from the Passion Play of Oberammergau will be presented on Sunday evening at the First Congregational church. The pastor will present an appropriate sermon.

Wilfred H. McClain, state Bible school superintendent of Church of Christ, will be in Lima Sunday and will speak at the Bible school session at the Central Church of Christ. He will also be the speaker at the morning service.

Peter Leon, proprietor of the City restaurant, on South Main street, entered a plea of guilty to selling adulterated milk in the court of Justice of the Peace Hamilton this morning and was fined \$50 and costs. He was also given a sentence of 30 days in the county jail, but the latter was suspended.

Czerny Glasgo and Lydia Glasgo, entered pleas of not guilty when tried in the court of Justice of the Peace Hamilton this morning. The former was charged with non-support and the other with house-breaking. They will receive a hearing next Friday.

T. M. Allen, arrested last night on a charge of beating a board bill, settled the case with the complainant by paying the account. The case was dismissed by Justice Morris.

IS HELD AT WAPAK FOR HORSE STEALING

A man giving the name of Charles Wilson was arrested this morning at Wapakoneta on a charge of stealing a horse and buggy from the Plummer & Cook livery barn, on East Wayne street.

It is alleged that Wilson traded the stolen property for another outfit and a sum of cash to boot. The other party to the transaction became suspicious after the deal and upon inquiry at the Lima police department learned that an outfit answering the description of the one he had received in the trade had been stolen from Lima. He immediately notified police of Wapakoneta and they placed Wilson under arrest. He will be returned to Lima for trial.

DEMOCRATIC PLATFORM AVOWS

(Continued from page three)
all expenditures for the support of the government and to that end favor a return by the house of representatives to its former practice of initiating and preparing all appropriation bills through a single committee chosen from its membership, in order that responsibility may be centered, expenditures standardized and made uniform and waste and duplication in the public service as much as possible avoided. We favor this as a practicable first step towards a budget system.

Civil Service.
We reaffirm our declarations for the rigid enforcement of the civil service laws.

Philippine Islands.
We heartily endorse the provisions of the bill, recently passed by the house of representatives, further promoting self-government in the Philippine Islands as being in fulfillment of the policy declared by the democratic party in its last national platform and we reiterate our endorsement of the purpose of ultimate independence to the Philippine Islands, expressed in the preamble of that measure.

We recommend the extension of the franchise to the women of the country by states upon the same terms as to men.

Protection of Citizens.
We again declare the policy that the sacred rights of American citizenship must be preserved at home and abroad, and that no treaty with any other government shall receive the sanction of our government which does not expressly recognize the absolute equality of all our citizens, irrespective of race, creed or previous nationality, and which does not recognize the right of expatriation. The American government should protect American citizens in their rights not only at home but abroad and any country having a government should be held to strict accountability for any wrongs done them, either to person or property. At the earliest practicable opportunity our country should strive earnestly for peace among the warring nations of Europe and seek to bring about the adoption of the fundamental principle of justice and humanity, that all men shall enjoy equality of right and freedom from discrimination in the lands wherein they dwell.

Prison Reform.
We demand that the modern principles of prison reform be applied in our federal penal system. We favor such work for prisoners as shall give them training in remunerative occupations, so that they may make an honest living when released from prison; the setting apart of the net wages of the prisoner to be paid to his dependent family or to be reserved for his own use upon his release; the liberal extension of the principles of the federal parole law, with due regard both to the welfare of the prisoner and the interests of society; the adoption of the probation system, especially in the case of first offenders not convicted of serious crimes.

Pensions.
We renew the declarations of recent democratic platforms relating to generous pensions for soldiers and their widows, and call attention to our record of performance in this particular.

Waterways and Flood Control.
We renew the declaration in our last two platforms relating to the development of our waterways. The recent devastation of the lower Mississippi valley and several other sections by floods, accentuates the movement for the regulation of river now by additional banks and levees protection below and diversion, storage and control of the flood water above, an efficient utilization for beneficial purposes in the reclamation of arid and swamp lands, and development of water power, instead of permitting the floods to continue as heretofore, agents of destruction. We hold that the control of the Mississippi river is a national problem. The preservation of the depth of its waters for purposes of navigation, the building of levees and works of banks protection to maintain the integrity of its channel and prevent the overflow of its valley, resulting in the interruption of interstate commerce, the disorganization of the mail service and the enormous loss of

FRECKLES

Now is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription ointment—double strength—is guaranteed to remove these homely spots. Simply get an ounce of ointment—double strength—from any drugstore and apply a little of it at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion. Be sure to ask for the double strength ointment as this is sold under guarantee of money back if it fails to remove freckles.

**Make Your Home
More Beautiful
at Little Expense**

Annual Clearance Sale of the Pleasant View Greenhouses and Gardens at the Market House. Geraniums, Salvias, Cannas, etc., 25c, 50c and 75c per dozen. Less than half their former price. All choice stock.

Life and property, impose an obligation which can only be discharged by the national government.

We favor the adoption of a liberal and comprehensive plan for the establishment and improvement of our harbors and inland waterways with economy and efficiency, so as to permit their navigation by vessels of standard draft.

Alaska.
It has been and will be the policy of the democratic party to enact all laws necessary for the speedy development of Alaska and its great natural resources.

Territories.
We favor granting to the people of Alaska, Hawaii and Porto Rico the traditional territorial government accorded to all territories of the United States since the beginning of our government, and we believe the officials appointed to administer the government of those several territories should be qualified by previous bona fide residents.

Candidates.
We unreservedly endorse our president and vice president, Woodrow Wilson, of New Jersey, and Thomas R. Marshall, of Indiana, who have performed the functions of their great offices faithfully and impartially and with distinguished ability.

In particular, we commend to the American people the splendid diplomatic victories of our great president, who has preserved the vital interests of our government and its citizens, and kept us out of war. Woodrow Wilson stands today the greatest American of his generation.

Conclusion.
This is a critical hour in the history of America, a critical hour in the history of the world. Upon the record above set forth, which shows great constructive achievement in following out a consistent policy for our domestic and international development; upon the record of the democratic administration, which has maintained the honor, the dignity and the interests of

the United States and at the same time retained the respect and friendship of all nations of the world, and upon the great policies for the future strengthening the life of our country, the enlargement of our national vision and the ennobling of our international relations, as set forth above, we appeal with confidence to the voters of the country.

MORE LIMA TEACHERS TO ATTEND NORMALS

A number of teachers, aside from the large list given in the Times-Democrat the first of the week, will attend school during the vacation at various colleges. The list is as follows:

At Miami, Oxford—Veronica McCray and Goldie Adams.
At Athens—Cecil Stewart, Lulu Weeks, Geraldine English, Florence Moore, Eda Fetter, Alice Stockton.
At Ypsilanti—Mary Gore, Amy Van Cleve, Ruth Wolf and Vera Neely, the last two of whom will take special courses in vocational work for retarded pupils.
At Ada—Lucille Wright.
At Bowling Green—Lena Peter.

COMPANY C TO HIKE.
Company C will take their second hike of the summer tomorrow, when they leave for McBeth's park. After pitching their tents and partaking of the evening repast, the members of the outfit will pile in the "hay," and get sufficient rest for the following day's drill. Providing weather conditions permit, it is expected to make this a weekly program during the summer.

MACKENZIE'S OPEN NEW LIMA ADDITION

William Holmes Mackenzie and Ralph P. Mackenzie have laid out a new addition to Lima and the same has just now been filed in the recorder's office.

The new addition will be known as Mackenzie brothers' subdivision to Lima. It includes 29 lots and extends west from Elm street to Lakewood on Charles street and includes lots on both Charles and State streets.

It joins the fine homes now constructed on Lakewood avenue and many of the lots overlook Fawcett park. They will be placed on sale as soon as improvements are made, which will be put in this summer.

Indigestion and Constipation.
"When living in Syracuse, N. Y., about two years ago I took two bottles of Chamberlain's Tablets and they cured me of indigestion and constipation after I had suffered for months with these disorders." writes Mrs. Charles Gloyd, Baldwinville, N. Y. Obtainable everywhere. mo-wed-fri

LIMA CHAUTAUQUA TICKETS FOR SALE

Tickets for the big Chautauqua, which will be held at Fawcett park in Lima from July 13 to 19, will be distributed in the various wards of the city to representatives of the association and these in turn will be given

to minor helpers, who will distribute them, making a complete canvass. This action was decided at a meeting of the officers and committee in charge, held last night.

Funeral services for William Vincent Peitruschak of 1133 South Main street, will be held Saturday morning at 8 o'clock, at St. John's Catholic church. The body will be laid to rest in one of the new mausoleum crypts in Gethsemani. Death occurred Wednesday night at the City hospital.

When you have the misfortune to break your glasses, bring us the pieces and we'll duplicate them while you wait—an hour or two at the most for even the most complicated lenses. If we made your glasses originally, we have your prescription on file and if you'll telephone us we'll have a new lens ready when you call.

Our grinding plant on the premises makes it possible for us to give you this kind of service. You do not have to wait while your glasses are being sent to a wholesale house or to a distant city for repair.

the stores away that distance in a camper chest, takes to sporty license and becomes a termagant.

A successful marriage is a matter of give and take, the wife's loving sacrifices to the husband, the husband's devoted sacrifices to the wife. One must not thrive at the expense of others, and the girl who marries, determined to have her own way in everything, is preparing great unhappiness for her future.

It has only been lately that we realized that woman's work in the home, when properly performed, is an economic factor of as great value as the husband's work as wage earner. Soon this knowledge will spread universally, and when it does come to be more generally comprehended woman will consider seriously this matter of preparing for their life's work.

The duties of the home should be systematized just as the work in an office, and women should realize that cheap, poorly performed labor is the dearest and hardest in the run of futile years.

Of course I, who have lived among professional heavers all my life, don't hold that every woman's only place is in the home—that is impossible for the woman with a career or fired by the divine accident of genius. But many of these same professional women find time for homemaking and the raising of beautiful families.

It is so difficult to follow a demanding public career and raise your family that we are firm in believing women should be freed from performing arduous tasks while they are performing that divine service to their race. But there should be no obstacles in the way of the woman who studies for her future, planning the career she is best fitted for. If she is destined a business woman and not a housekeeper, as long as she is not a drag to her husband, but a helpmate, working for their common interests, her career should be respected.

And no happiness is so potent as that happiness for which we pay the greatest price, laurels we have earned and deserve.

Answers to

Correspondents

H. T. F.—Mary Miles Minter is now with Mutual. Probably your letter care of Metro will be forwarded to her.

B. A. R.—Audrey Munson played the leading role in "Inspiration". I do not believe she has appeared in other pictures.

M. A. L.—Marguerite Clark is still with the Famous Players. No, we never appeared in a picture together.

Oiga T.—Have your synopsis carefully typewritten and send them to the scenario department of any reputable moving picture company. Always enclose stamps to cover their return. Do not set a time limit—some companies keep scripts for consideration longer than others.

Bertha M.—Edna Goodrich played the leading part in "Armstrong's Wife". She is now with the Morosco Photoplay company.

Georgine W.—No, I would not advise you to dye your hair. It makes a girl look very much older and is no more attractive than blond hair.

Mary Pickford.

JOSEPH HOLTZ DIES

Mrs. Frank Burger of Lima, has received information of the death of her father, Joseph Holtz, which occurred at his home in Delphos on Wednesday evening. He was 61 years of age.

Funeral services will be held at St. John's Catholic church in Delphos on Saturday morning at 9 o'clock. Interment will be in St. John's cemetery.

**System Absorbing Poison,
Tongue Coated, Liver
Clogged?**

A Wineglass of Tollo Water Will
Flush Your Liver and Start You
Feeling Good in Half
an Hour.

Those who have known the pleasure of an active, energetic life and who now drag around feeling tired, depressed and unfit—look at your tongue, see if it is not covered with a furry coat. Look at your skin, see if it is not sallow, possibly covered with pimples. Your food distresses you, bloats your stomach and sometimes feels heavy as lead. It all comes from your liver. Too much rich food has choked the bile tubes, you become constipated and the bile which should be expelled regularly, is being forced back into the stomach and absorbed into the system.

Concentrated Tollo Water from Dawson Springs will give quick relief. Get a 15-cent bottle from the drug store; pour out about a third of a tumbler full in a glass of plain water and drink it before breakfast. In a few minutes it will flush, really wash out the bile and waste from your system and start you feeling fine. Your complexion will start to clear up at once and by the time you've used a 15-cent bottle it will return to its natural healthy color.

Keep a bottle in the house and take a wineglassful before breakfast every few days; it will keep your bowels regular, it clogs and your liver acts freely. You can eat all you want without feeling "fatty" or bloated. You will know again the pleasure of an active, energetic life.

SERIOUS CHARGES IN DIVORCE SUIT

Mrs. Bertha M. Court is
Plaintiff and is Granted
Injunction.

That he remained away from his home until late hours of the night and until 3 o'clock in the morning, associating with women of questionable character, using up and squandering his earnings and dissipating his property, were some of the numerous charges made by Mrs. Bertha M. Court in her suit for divorce, filed in court this morning against Samuel T. Court of 1130 West Market street. She charges adultery, committed in Marion, Ohio, in 1902 and 1904, in Marion and Lima in 1909, and again in 1915.

Twice she forgave him, Mrs. Court says, but he went back to his old life. He has abandoned her, she states, and is not providing means of support. The couple were married on March 4, 1896, in Prospect, Ohio, and have two children, Orelia G. Court, 18 years old, and Ethel Verne Court, 14 years old.

She owns the West Market street property and mortgaged same, she avers, to set Court up in business. He owns a third interest in 34 acres of land in Marion county, has an automobile and some funds in bank, she states.

Mrs. Court asked and was granted by the court an injunction preventing him from selling, encumbering or disposing of his property or from taking any money from the bank. Temporary and permanent alimony is asked.

Callie Lowmaster of 616 Atlantic avenue, is plaintiff in a suit for divorce against Lawson Lowmaster, to whom she was married in Henry county on October 12, 1879. They have two children, both of age and married. For 12 years he has been willfully absent. His last known residence was in Tarpon Springs, Florida.

BIG SUNDAY SCHOOL CELEBRATION JULY 4

From all over the county are coming to the Lima Superintendents' association, word that Sunday schools will be largely represented at the big union Sunday school picnic, which will be held at the Faurot park on the Fourth of July. A big parade, led by a band, will be a feature.

There will be interesting addresses by prominent speakers. A basket picnic will be served at noon under the shade of the tall trees in the park. There are more than 100 Sunday schools in Allen county. Practically all will send large delegations.

Times want ads bring results.

Amusements

THE FAUROT PICTURE

This is the last day of "Playing With Fire", the splendid Metro photoplay at the Faurot. Madame Petrova, Arthur Hoops and Evelyn Brent appear to great advantage in this well constructed story, which has been given a production that is eminently satisfying. A laughable comedy, "A Symphony in Coal", is acted by Mr. and Mrs. Sidney Drew, and for extra good measure you may see motion pictures of Lima's big patriotic parade, taken on June 3rd.

STAR THEATRE

This is Red Feather day at the Star, and that theatre has a fine example of Universal's special production in "The Man From Nowhere", a five-part drama featuring King Baggot.

Without stretching the point at all this melodrama is by far the best picture shown under the Red Feather brand that the past two months have brought forth. It has a story of pronouncedly strong and gripping qualities in which the interest never lags throughout the entire five reels. It has artistic and appropriate settings and photography of the finest sort, while the cast is in every way admirable. King Baggot, who has for a long time been denied the opportunity to render a performance befitting an actor of his ability, is afforded a real part in this picture. In the role of Jim Mr. Baggot acts with sincere and effective feeling. He plays to the sympathy of his audience and reaches them by methods worthy of praise. Irene Hunt as his villain, Betty; Joseph Granby as the villain and Joseph Girard as the governor have other important roles and play them effectively. You'll like "The Man From Nowhere", but don't overlook the fact that it is on at the Star today only.

TAKEN FROM RIVER

STEUBENVILLE, O., June 16.—Considerable mystery surrounds the finding of the body of A. P. Trewhitt, 44 years old, dredgeboat engineer, here. His body was scooped up by the excavating shovel of his own boat. He mysteriously disappeared last night and nothing was seen of him until his body was found today. His home was in Jackson, Mich.

Best Toilet Goods of all kinds at the Notion Counter.

BRINGING UP FATH

Cleveland Takes Close Game From New York Team

CLEVELAND, June 16.—Cleveland defeated New York, 3 to 2, in ten innings, Grane scoring the winning run on his base on balls, Turner's sacrifice and Speaker's hit. Prior to the tenth all the runs were scored as the result of extra base hits.

The game was the noisiest ever played in Cleveland, because of the presence of 2,000 members of the Electrical League equipped with scores of electric horns, gongs and thousands of megaphones.

Toledo Is Winner At Milwaukee

MILWAUKEE, Wis., June 16.—Toledo won the opening game of the series 4 to 3, by bunning hits off Comstock in the first inning and taking advantage of his wildness in the third when he was benched for Faeth. Score:

Toledo 2 0 1 0 0 0 0 1—4
Milwaukee 0 0 0 0 0 1 0 2—3
Batteries—Bedient and Sweeney; Comstock, Faeth, Young and Mayer.

KANSAS CITY, Mo., June 16.—Kansas City took the second game of the series from Columbus yesterday 10 to 2, making the game safe by securing five runs in the first three innings and clinching the victory with five more in the eighth. Score:

Columbus 1 0 0 0 0 0 1 0—2
Kansas C. 13 1 0 0 0 0 5—10
Batteries—Brady and Pratt; Reagan and Berry.

WHY ENDURE SUMMER COLDS?

It isn't necessary to have a stuffed head, running nose. To cough your head off as it were. All you need to do is to use Dr. Bell's Pine-Tar-Honey. The soothing and healing balsams open the clogged air passages and in a short time you get relief and start on the road to recovery. Your nose stops running, you cough less and you know you are getting better. Get a bottle, use as directed. Keep what is left as a cough and cold insurance.

Times want ads bring results.

ORDINANCE, NO. 193

Determining to proceed with the improvement of State street from Cole street to about 200 feet east of Charles street by paving, etc.

Be it ordained by the Council of the City of Lima, State of Ohio, three fourths (3/4) of the whole number elected thereto concurring:

Section 1. That it is the intention of Council and it hereby determines to proceed with the improvement of State street, by paving with either vitrified paving brick, sheet asphalt, bituminous concrete or concrete, as hereinafter determined.

Section 2. That the Director of Public Service be and he is authorized and directed to make and execute a contract with the lowest and best bidder, after advertisement according to law.

Section 3. That the Director of Public Service be and he is authorized and directed to make and execute a contract with the lowest and best bidder, after advertisement according to law.

Section 4. That the following lots and lands bounding upon said street, to-wit: Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122,

UNCLE SAM IS ARRANGING MAIL ROUTES VIA AIR

Bid For Aeroplane Service
In Alaska Accepted by
P. O. Dept.

WILL REPLACE SLEDS
Aviators Scarce in America
Since War in Europe
Opened.

By Frederic J. Haskin.
WASHINGTON, June 17.—The United States is soon going to have an aerial mail service. Early in May the post office department advertised for bids on an aeroplane service throughout Alaska, in answer to which the owner of three powerful aeroplanes is now on his way from Alaska gold fields to close a contract. This man's bid, which is for \$49,500 a year, was accepted by the department for the reason that it was the only one submitted. The demand for aircraft and skilled operators in Europe is so great that very few aeroplanes, aside from comparatively small number in the army and navy, are allowed to remain in this country. A bid was also requested for a similar service from New Bedford, Mass., to Nantucket, R. I., but so far no one has offered to undertake it.

The question of an aerial mail service in this country has been in process of agitation ever since 1910, when a mail pouch was carried by aeroplane to the New York post office from the steamship Kaiserin Victoria which was lying 50 miles at sea. Following that, no less than 67 attempts were made to show the practicability of carrying mail through the air. The proposition was the subject of so much popular interest that it was adopted by various municipal boards of trade as an advertising feature. The plan was to secure permission from the government to carry the mail by aeroplane a specific distance for a certain number of days, thus attracting great crowds of people to witness the phenomenon and incidentally accelerate business in the town. In the space of six years, these demonstrations proved so uniformly successful that the government decided to adopt the plan in stretches of country where the usual method of transportation was expensive and difficult.

Under these circumstances, the first choice was Alaska, where the mail is carried by dog-sled, which is costly and inadequate. During the winter months no mail at all is transmitted in the northern interior, where the last mail sled in the fall and the first mail sled in the spring are events to be celebrated like the Fourth of July and Christmas. The present contract for aeroplane service at \$49,500 is \$25,000 more than the dog-sled system costs, but the aeroplane will carry 1,000 pounds of mail as compared to the sled's 200, and bring Seward, Nome and other cities three weeks nearer the United States. In addition to mail, the postal aeronaut expects to run a passenger and express service. There are many sections of the country that would be greatly benefited by a swift mail service which would be practically impossible except by air because the route would lie over mountains and desert. From Santa Maria to Shale, Calif., for example, the distance is not over 50 miles as the crow flies, but over the mountain range that separates them it takes two days for the mail to travel. As important oil interests are located in each of these towns, the slowness of the mail is a great hardship. An aeroplane could make the distance from Gallup, N. M., to the Indian agency at Keams Canyon, Ariz., which is less than a hundred miles, in a little more than an hour, while under the present system it requires two days for the mail to arrive by wagon. Again, Phoenix and Globe, Ariz., are only 72 miles apart, but a journey of 24 hours lies between them. The rapid development of the aeroplane is watched with much interest in these places, where a

national aerial mail service would be distinctly welcomed.

The great stumbling blocks in the way of a national aerial corps of mail carriers are the tremendous cost of such a system, and the attitude of congress which builds \$10,000 post offices in remote districts not in dire need of them, but which can not see the necessity of buying aircraft either for the mail or the army or the navy. It has been estimated that on the day President Wilson's note went forth to Germany, there were only three up-to-date and efficient aeroplanes in the United States navy, and only twice as many in the army. At the beginning of the war, Germany had an aerial fleet of over a thousand craft, manned by trained experts, while England had nearly as many, leading in speed machines, and France possessed a fleet of 600 after discarding many obsolete models. Now, through the efforts of the Aero Club of America, two aviation schools have been established in this country—one at San Diego and one in Texas—and a fund is being raised by patriotic Americans to provide the state militia with flying squadrons.

There have been several reports recently that the importance of the aeroplane in the European war had been greatly exaggerated, but these are hardly borne out by the speed with which the European powers are importing aircraft. American factories are working full capacity. Predictions of a future aerial battle at Essen have long been current and it is a well-known fact that all the belligerents are spending large sums in increasing their aerial forces. According to one military authority, the war will end only when one nation succeeds in inventing a weapon that is capable of destroying the enemy's aerial power. Under these circumstances, it is impossible for one army to make a single move that is not spied upon from the air by its opponent. If a German commander decided to flank a hundred thousand men against what he is informed by his air scout is a weak position, the French army is immediately apprised of it by its airmen and moves up men to meet the situation, forming a deadlock. With the air scouts flying overhead—difficult targets of the most proficient marksmen—a surprise attack is out of the question.

The work of the air scout is probably the most dangerous of all the dangerous work of war, since the only protection of the aeroplane is usually its speed. The men in the trenches are not to be envied, and duty on a battleship is not by any means a sinuous, but the sensation of peering down at the enemy who is engaged in firing projectiles thousands of feet into the air with the idea of hitting you, could hardly be termed "sport," as one optimistic Englishman described it. Yet if you were an air scout you would doubtless take the same risks and proudly count the fresh bullet holes in the wings of your machine every day together with the rest of the flying corps, as is the custom in Europe. Among his other requirements, which include watching a barograph, speed gauge, a topographical map before him and a compass while keeping an eye on the enemy, listening to the rhythm of his motor and acting quickly in an emergency, the air scout is not allowed to have nerves.

The only way to combat his visi-

lance, besides firing at him with the anti-aircraft gun, is to trick his eye. Thus the English army, on perceiving a German dirigible approaching dropped their kits and fled into an adjacent wood. The Germans thinking the kits were men, opened a tremendous bombardment upon them, destroying the kits but leaving the soldiers unharmed. Another time, the Germans made a peaceful retreat by means of several dummy trenches displaying German helmets, which were reported as the German army by a French air scout.

A British air scout flying high above the German lines one day was greatly surprised by the constant arrival along a certain road of thousands of provision wagons. They were still arriving when the German guns opened fire upon him and he was compelled to return to his own lines. The next day, however, he was back on scouting duty and discovered the mystery of the numerous wagons. They were being emptied of soldiers carefully hidden underneath the provisions.

Most of the aeroplanes now carry wireless apparatus which in battle they direct the fire of the artillery far below. Formerly, smoke bombs were used in the day time and colored lights at night, while the German dropping silver balls to direct the men by wireless while the pilot guides the machine.

The aeroplane as a destructive weapon has not yet become formidable, although occasionally it has been able to do considerable damage, for the reason that it is still in an experimental state. The difficulty lies in the fact that the weight of bombs and guns, wireless apparatus, armor, field glasses,

camera, etc., can not be added without the sacrifice of speed. A two hundred horse power engine is not any more than sufficient to run a large and heavy craft. One German model of an armored biplane, with a capacity of 20 men, 4 machine guns, anti-aircraft gun and motorized by eight 180 horse power engines, has so far outstripped all other inventions in its weight-carrying capacity and speed, but others of far greater possibilities are now in process of construction. It is the slow-moving dirigible at present, however, which hovers over the enemy and destroys him: the aeroplane is too rapid and light to do more than direct the fire, scout, and defend itself. It is the aeroplane destroyer for which the war waits to end.

While the aeroplane is demonstrating its value as an agent of war in Europe, it is developing commercial value in the United States. It is to carry the mails. When the war is over the nations of Europe with their hundreds of aeroplanes will probably follow the example of the United States which has established the first aerial mail service in the history of the world.

PLAY GROUNDS OPEN WITH BALL GAME

Faurot park was the scene of the first baseball game of the season today, when the playground teams from Lincoln and Faurot parks crossed bats. The teams are under the management of Harold Shook, Harold Rowman, Hobart Mumaugh and Charles Hagerman.

One hundred children at Faurot park and 50 at Lincoln park, are at the playgrounds every day. Miss Lenore Hyman is supervisor at Lincoln park. Volley ball courts have been installed in the parks. Baby swings are among the new equipment.

LOOK GOOD—FEEL GOOD
No one can either feel good nor look good, while suffering from constipation. Get rid of that tired, draggy, lifeless feeling by a treatment of Dr. King's New Life Pills. Buy a box today, take one or two pills tonight. In the morning that stuffed, dull feeling is gone and you feel better at once. 25c at your druggist.

DULL, SPLITTING SICK HEADACHE

Dr. James' Headache Powders Relieve at Once—10 Cents a Package.

You take a Dr. James' Headache Powder and in just a few moments your head clears and all neuralgia and distress vanishes. It's the quickest and surest relief for headache, whether dull, throbbing, splitting or nerve-racking. Send someone to the drug store and get a time package now. Quit suffering—it's so needless. Be sure you get Dr. James' Headache Powders—then there will be no disappointment.

We Need Your Patronage

Despite the fact that this great store is growing rapidly we need all the customers we can get and for this reason we are still continuing our special inducements.

ALSTAETTERS ARE TO GIVE CONCERT

Alstaetter band and orchestra, under the leadership of the husband and father, Jacob Alstaetter, will give a free concert at their home in Monroe township on next Sunday. The Alstaetter farm is located four miles south and a mile west of Columbus Grove and north of Oakra. The program will be given between the hours of 4 and 4 o'clock. The father, mother and ten children.

draw play in the hand. This same number is represented in the orchestra. They have several hundred dollars' worth of musical instruments and appear in full uniform. The public is invited to journey to their home on Sunday and listen to the concert.

Words of Praise For Chamberlain's Cough Remedy.
"Last winter I used two bottles of Chamberlain's Cough Remedy," writes Mrs. John Miller, Evesboro, Ind. "It cured me of a severe cold on the lungs and an aggravated cough. I have recommended this remedy to a great many people who have used it and have nothing but words of praise for it. Obtainable everywhere."

RURAL M. E. CHURCHES.
Rev. W. W. Conditon, 1913 St. John's avenue, pastor.
Shawnee: Sunday school will be combined with the preaching services, and both devoted to the observance of Children's Day, beginning at 10 o'clock.
Fletcher: Sunday school at 1:30; preaching at 3 p. m. Children's program at 7:30.
Cridersville: Sunday school at 9; Children's Day exercises at 7:30.
Warsaw: Sunday school at 9.

There isn't a merchant in this city that will not do the right thing by the public. The people should help by keeping their money in Lima. If

Saturday's Attractions In Our Ready-to-Wear Department

Sport Striped Skirts at \$1.19, \$1.50, \$1.95, \$2.50, \$3.95 and up.

Twenty-five different styles in a wonderful assortment of sport stripes. Wide and narrow striped guinea, berline and linen like fabrics in a variety of colors. Beautifully trimmed with one or two pockets, buttons and wide belts. Many styles are exclusive.

White Cotton Skirts at \$1, \$1.19, \$1.25, \$1.98, \$2.50, \$2.98, \$3.50, \$4.95, \$5
Thirty clever new styles in white gaberdine, pique, Beach cloth, pique-velour, golfine, etc. Excellently tailored styles, trimmed with pockets, buttons and wide belts. Regular and extra sizes. Every size in every style. People tell us ours is the greatest skirt assortment in town—Saturday the assortment will be at its best.

Fashion's Final Decree In White Dresses -- Wash Dresses -- Sport Suits

Now when every woman is wanting a pretty cool washable frock for street, dress or vacation wear along comes this announcement of an unusual showing of just the garments you most desire. White frocks in lace, voile, organdy, crepe de chine and embroidery; wonderful creations in pretty colored voiles, marquisettes, crepes and novelty weaves. The styles are so unusual, and there is no sameness about them. Patterns are stripes, quaint floral designs of all kinds. They are for morning, for afternoon, for all occasions and there is not that "ready-made" note about even the least expensive. Many styles at each of the following prices—\$5.90, \$6.95, \$7.50, \$8.95, \$10, \$12.95 to \$35.

Sport Suits at \$8.95, \$10, \$12.50, \$15 to \$27.50
Sport Suits in one and two pieces of striped fabrics, white nets, voiles, heavy linen like weaves, in combination of striped jackets and plain skirts. Also silk pongees, tub silks, silk Jersey, etc. Most all only one of a style. Our assortment is sure to please you.

New Navy Taffeta Frocks, \$15 to \$25
Unusual styles in clever navy and novelty silk dresses. Many come in the sport effects with large white silk collars, wide belts and pockets on the skirt. One model—the new "Quaker Dress" with its quaint plainness and high waisted effect is most attractive. New models for present and early fall wear are daily arriving.

Children prefer "sport" styles too, so we have prepared for their wants with a wonderful assortment of new middie suits on separate middie and skirt styles. Stripes are in blue, rose, green, and plaid, either style in combinations of gingham, chambray, of volles, and linens. Every color and over 50 different styles. Prices 50c, 75c, 90c, \$1, \$1.50, \$1.75, \$2.50 to \$3.75.

R. T. GREGG & CO.

"PREPAREDNESS" IN THE HOME

You know how your work piles up when you slow down the least little bit. If you come back from a short visit, you find that dirt and dust have accumulated as if by magic and you work morning, noon and night catching up with things and getting your house clean and sweet again.

Not so with the woman who relies upon Electric Service. She has so many short-cuts and labor-savers that she is never rushed or crowded for time.

She believes in "preparedness" and fortifies herself with the electric washing machine, electric iron, vacuum cleaner, sewing machine motor, electric fan, electric cooking utensils, etc.

Consequently she has the upper hand on her work and she does with ease and quickness what the other woman is obliged to do the long, hard tedious way.

Why wait another single day? The best way is the Electric way. The best time is NOW. Be prepared.

THE OHIO ELECTRIC RAILWAY COMPANY
